10. The Company is pleased to provide e-voting facility through Central Depository Services (India) Limited (CDSL) to enable all the Members to cast their votes electronically on the resolutions mentioned in the Notice dated August 12, 2014 for the 29th Annual General Meeting of the Company.

e-Voting instructions

The instructions for members for voting electronically are as under ;

- (I) In case of members receiving Notice of AGM by e-mail or physical copy (for members whose E-mail IDs are not registered with the Company / Depository Participants or have requested for a physical copy) :
 - 1) Log on to the e-voting website www.evotingindia.com
 - 2) Click on 'Shareholders' tab to cast your votes.
 - 3) Now, Select the Electronic Voting Sequence Number – "EVSN" along with "COMPANY NAME" from the drop down menu and click on "SUBMIT"

If you are holding shares in Demat form and had logged on to www.evotingindia.com and had cast your vote earlier for EVSN of any Company, then your existing login id and password are to be used.

In case you do not have an existing login id and password as referred to in (4) above, the following procedure is to be followed :

- 4) Fill up the following details in the appropriate boxes :

	For Members holding shares in Demat Form	For Members holding shares in Physical Form
User ID	For NSDL : 8 Character DP ID followed by 8 Digits Client ID For CDSL : 16 digits beneficiary ID	Folio Number registered with the Company
PAN	Enter your 10 digit alpha-numeric *PAN issued by Income Tax Department when prompted by the system while e-voting (applicable for both demat shareholders as well as physical shareholders)	
DOB	Enter the Date of Birth as recorded in your demat account or in the company records for the said demat account or folio in dd/mm/yyyy format.	
Dividend Bank Details	Enter the Dividend Bank Details as recorded in your demat account or in the company records for the said demat account or folio.	

- 5) After entering these details appropriately, click on "SUBMIT" tab.
- 6) Members holding shares in physical form will then reach directly the EVSN selection screen. However, members holding shares in demat form will now reach 'Password Creation' menu wherein they are required to mandatorily enter their login password in the new password field.

The new password has to be minimum eight characters consisting of at least one upper case (A-Z), one lower case (a-z), one numeric value (0-9) and a special character (@ # \$ % & *). Kindly note that this password is to be also used by the demat holders for voting for resolutions of the company or any other company on which they are eligible to vote, provided that company opts for e-voting through CDSL platform. It is strongly recommended that you do not share your password with any other person and take utmost care to keep your password confidential.

- 7) Click on the relevant EVSN along with the Company name on which you choose to vote.
- 8) On the voting page, you will see Resolution Description and against the same the option “YES/NO” for voting. Select the option YES or No as desired. The option YES implies that you assent to the Resolution and option NO implies that you dissent to the Resolution.
- 9) Click on the “Resolutions File Link” if you wish to view the entire Resolutions.
- 10) After selecting the resolution you have decided to vote on, click on “SUBMIT”. A confirmation box will be displayed. If you wish to confirm your vote, click on “OK”, else to change your vote, click on “CANCEL” and accordingly modify your vote.
- 11) Once you “CONFIRM” your vote on the resolution, you will not be allowed to modify your vote.
- 12) You can also take out print of the voting done by you by clicking on “Click here to print” option on the Voting page.
- 13) If Demat account holder has forgotten the changed password then Enter the User ID and Captcha Code, click on Forgot Password and enter the details as prompted by the system.

Institutional shareholders (i.e. other than individuals, HUF, NRI, etc.) are required to log on to <http://www.evotingindia.co.in> and register themselves, link their account which they wish to vote on and then cast their vote. They should upload a scanned copy of the Board Resolution in PDF format in the system for the scrutinizer to verify the vote.

- (II) The voting period begins on 22.09.2014 at 9.00 am and ends on 24.09.2014 at 5.00 pm. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of September 15, 2014, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter. Once the vote on a resolution is cast by the shareholder, the shareholder shall not be allowed to change it subsequently.
- (III) The Company has appointed Mr. Sanjay R. Dholakia, Practicing Company Secretary (Membership Number FCS 2655) as the Scrutinizer to scrutinize the e-voting process in a fair and transparent manner.
- (IV) The results shall be declared on or after the Annual General Meeting. The results along with the Scrutinizer’s report shall be placed on the website of the Company and on the website of CDSL within two working days and also communicated to the Stock Exchange.
- (V) In case you have any queries or issues regarding e-voting, you may refer the “Frequently Asked Questions” (FAQs) and e-voting manual available at www.evotingindia.com under help section or send an email to helpdesk.evoting@cdslindia.com.

Profit & (Loss) balance brought forward from the previous year	3893.47	1494.97
Balance carried to Balance Sheet	3579.02	3893.47

1. DIVIDEND

Your Directors are pleased to maintain dividend track record initiated by the company and that in spite of net loss incurred during the year, glad to recommend a dividend of ₹ 0.50 per Equity Share on 17693213 Equity Shares of ₹ 10/- each for the financial year ended 31st March, 2014. This nominal dividend is paid as against ₹ 0.80 paid in the previous year. The total outgo on account of Dividend shall be ₹ 103.50 Lacs including Corporate Dividend Tax.

2. REVIEW OF OPERATIONS

Your company operates in two divisions, i.e. Fertilizer division and Oil division. Our Phosphatic fertilizer, Single Super Phosphate (Powder & Granulated) brands of "Girnar" and "Suryaphool" are well-entrenched and well-accepted in the market. Apart from SSP, company manufactures mixed fertilizer NPK along with industrial chemicals like Sulphuric Acid and Oleum whilst soya seed crushing activity is undertaken at our Indore unit.

The nutrient based subsidy (NBS) policy implemented for phosphatic and potassic fertilizers w.e.f. 1st May, 2010 was well-intended one which resulted in proposals from major players for addition of capacity. But the price differentiation between Urea and other phosphatic fertilizers resulted in huge imbalance in nutrient consumption.

The average capacity utilization of SSP industry for financial year 2013-14 was reduced to 49.20% from 58.30% during 2012-13 whilst during the year your company has achieved 80% of average capacity utilization of SSP as against 91% reported during the previous financial year, which is considered to be highest in the industry of our size and operations. It is pertinent to note that your company could achieve this feat with active support from consortium member banks and better management of working capital at its disposal and timely availability of raw material.

Company continued to focus on its core business of SSP though thrust was given for NPK also. There was tremendous growth in NPK production since past three years, i.e. with meager quantity of 2915 MT in 2011-12 to 20700 MT in the year 2013-14. Company's fertilizer division has achieved 80% capacity utilization and produced 380328 MT as against 91% achieved in corresponding year 2012-13 with production of 435846 MT. Though industry average as per FAI data stands at 49.20% in the F.Y. 2013-14 against 58.40% in the F.Y. 2012-13 only 20 units were operated at above 60% capacity. The company at present maintains overall market share of 9.05% against 40.70 lac MT despatches reported in the country during the year 2013-14. Moreover, for want of higher working capital, this year also your company could not concentrate more on soya oil. Company introduced value-added product "Soil Conditioner" at Udaipur plant. However, during the current year the Company intends to increase production of NPK, Sulphuric acid, Oleum and Soya oil with the sanction and release of additional working capital.

Your company achieved sales turnover of ₹ 53,176.82 Lacs. Whilst share of fertilizer and chemicals division is ₹ 34,778.37 Lacs and soya division is ₹ 18,398.45 lacs, Company incurred net loss of ₹ 210.95 lacs. The reasons beyond the control of Management viz., reduction in subsidy and MRP by Govt. of India, excess availability of phosphatic fertilizer in the channel inspite of stagnant in demand and slide in sales and also over capacity due to entry of new players posing intense competition coupled with foreign exchange loss have affected the overall performance of the company.

It would not be out of place to mention here that business environment has become intensely competitive and in order to sustain and survive through this difficult phase, the Company has taken all possible extraordinary measures. Thus ensuring in efficient management of all resources, innovative approach to cost reduction and achieving operation efficiency at optimum levels.

However, had there been timely support by Working Capital lenders, seed crushing at our Indore oil division would have operated at optimum capacity and brought in additional revenue though during the year under review, the company has crushed a little higher quantity of 47219 MT of soya seed as against 46656 MT crushed during 2012-13. Thus the soya facilities were under-utilised.

Your Directors are hopeful that with the continuance of NBS Policy with additional contribution envisaged from the proposed capacity expansion of SSP plants and also optimum capacity utilization of soya division coupled with introduction value-added product of "Soil Conditioner" and with the unstinted support from working capital bankers, the performance of the company would further improve in the current year.

Industry Award for Best Performance:

This award is instituted by the Apex industry body, The Fertilizer Association of India (FAI) New Delhi. Your directors are glad to inform that for the third year in a row, your company was bestowed with "Best Performance Award" in the entire SSP industry for overall performance in the year 2013. The details of award are given here below :

For the year 2011 : Indore Unit

For the year 2012 : Pune Unit

For the year 2013 : Indore Unit

Thus we have achieved hat trick.

ISO Accreditation :

The Oil Division of your company has conformed with the requirements under ISO 14001 : 2004 accreditation for the Environmental Management System and the certificate issued in the year June-2007 is periodically renewed.

In pursuit of achieving Quality Standards, our Oil Division has fulfilled requisite conditions and received accreditation with ISO 9001 : 2008 during this year.

Similarly, our Fertilizer Division has also obtained accreditation for ISO 9001 : 2008 during this year.

This is an additional feather in our cap which will ensure Quality Management System.

3. EXPANSION ACTIVITY

Udaipur unit : Company has Proposed Expansion Project of Single Super Phosphate (1,81,000 to 3,15,000 TPA) and NPK (60,000 TPA), and Boronated SSP (25,000 TPA), and LABSA (20,000 TPA). The said proposal was considered by the 19th Reconstituted Appraisal Committee of MOEF during the meeting held on 28th and 30th May 2014. The formal Environmental Clearance is awaited by the company.

Indore unit : Our proposal for expansion of SSP capacity from 1.65 lac to 2.50 lac MT is approved by 10th Reconstituted Appraisal Committee of MOEF during the meeting held on 29th and 31st July 2013. However, company awaits the Environmental Clearance shortly.

4. DIRECTORS

During the year under review, Bank of India has withdrawn the nomination of Mr. Mohan Lal Goyal and nominated Mr. M. Shanmugam as its Nominee Director in his place. The Board places on record its sincere appreciation of the valuable contribution made by Mr. Mohan Lal Goyal during his association with the Company.

ANNEXURE TO DIRECTORS' REPORT - FORM A

PARTICULARS PURSUANT TO SECTION 217(1)(e) OF THE COMPANIES ACT, 1956 READ WITH THE COMPANIES (DISCLOSURE OF PARTICULARS IN THE REPORT OF BOARD OF DIRECTORS) RULES, 1988 AND FORMING PART OF THE DIRECTORS' REPORT FOR THE YEAR ENDED MARCH 31, 2014.

I. CONSERVATION OF ENERGY :**A. Energy conservation measures taken:**

Following Energy conservation measures were taken during the year 2013-14.

a. Single Super Phosphate Plant :

1. Complete recycling of process waste of SAP & SSP in SSP for compliance of Zero discharge thereby reducing fresh water requirement by almost 50 %.
2. Enhancing of Filter Press capacity & Moisture separator performance in SSP Scrubbing system thereby process optimization & energy saving.
3. Necessary arrangement for procurement of dry rock phosphate has been carried out to avoid higher consumption of furnace oil for rock drying.
4. In SSP plant debottlenecking of Rock grinding section has been done to enhance ball mill output resulting in less power consumption per MT of production by revamping certain equipments modifying ducts .
5. Installed one Auto Transformer system for Ball Mill ID and Fan Motor & Scrubber fan thereby reducing power consumption.
6. Transparent sheets installed in new Crane Shed / GSSP Shed. Avoided Electrical lighting requirement during day time.
7. Drip irrigation system installed for plantation watering.

b. Sulphuric Acid Plant :

1. In SAP, replaced partial quantity of low activity catalyst with high activity catalyst for improving conversion & steam / power recovery along with complete insulation refurbishment of 2 major equipments i.e. Hot Gas Filter and Waste Heat Boiler.
2. With effective chemical dosing & with higher concentration of cycles in Acid cooling towers & TG cooling tower has been done thereby conserving water & power.
3. With close monitoring of steam captive consumption in SAP thereby enhancing TG power units.
4. With addition of New resins in DM Plant, increased output between two regeneration, thereby reducing waste water / water conservation.

c. GSSP Plant:

1. In GSSP Plant, recycle in the process of Granulation has been reduced. This has helped in minimizing the fuel consumption.
2. Regular monitoring of consumption of power through Managers by installation of energy saving fans and capacitors.

d. Oil Division:

1. For reducing street light power consumption, 150w HPSV lamps were replaced with 400w lamps and at some places 250w SOMV lamps were replaced with 65w LED lamps. Over and above, auto-timer is installed for automatic control for on & off system so as to avoid manual operations. Motion sensor has been provided in the conference hall.
2. In Prep section, two motors of screw conveyor and aeration tank of ETP have been replaced with 7.5 HP and 5 HP from existing 15 HP and 12.5HP motors.
3. Coal consumption has been reduced by collecting entire condensate water of plant and prep section in the closed feed water tank of the tank and thus avoiding heat losses.
4. For reducing Hexane losses, all damaged and leaking tubes of economisers have been replaced for proper condensation of hexane vapours which gave dramatic reduction in consumption of Hexane, coal and power.

B. Additional investment proposals, if any, being implemented for reduction in consumption of energy :

At Udaipur we plan to install Solar Energy System for the office building to cater to power demand of light, fan / computer & street light etc. which will result in electricity savings.

C. Impact of measures at (A) and (B) above for reduction of Energy Consumption and consequent impact on the cost of production of goods :

All above actions have resulted in good control on cost of production in SSP plant.

II. TECHNOLOGY ABSORPTION:**A) RESEARCH & DEVELOPMENT (R & D)****a) Specific areas in which R & D is carried out by the Company :**

The specific areas in which the R & D activities are carried out by the Company are relating to improvement in quality of the existing products and development of new products to meet market demands and change in the product mix.

Fertilizer Division:

1. Installation of Online SO₂ analyser in SAP & Online Fluorine analyser in SSP for continuous stack monitoring.
2. Installation of online SPM monitoring instruments in stack (Suspended particulate matter) at Udaipur unit.

Oil Division:

3. In oil division for controlling stack emission of FBC boiler, filter bag system has been installed at 15 TPH capacity.
4. In coal crushing plant of boiler, installed cyclonic dust collecting system made in-house.

b) Benefits derived as a result of R & D :

Research and Development has always been a continuous process at various Units of the Company. The areas in which R & D is carried out are (a) minimization of effluents and (b) better sampling. In addition to this, following benefits have been arrived -

1. Automation in Oleum manufacturing process by installation of Auto control valves & Strength Monitoring instrument.
2. Improvement in Fluorine scrubbing system in SSP Plant by installation of Moisture Separator for minimizing stack appearance and thus maintain good environment.

c) **Future Plan of Action:**

Fertilizer Division:

1. The company plans Automation in SSP manufacturing process through fully computerized DCS technology for maintaining Product quality & faster curing product.
2. After receiving extremely good and overwhelming response from farmers for various grades of Granulated NPK Mixed Fertilizer, Company is planning to utilize its installed capacity to its maximum.
3. At Udaipur the company plans for in-house modifications of SSP plant & new stream of SSP plant along with its crane shed extension to enhance plant capacity to the tune of 3.10 lacs MT for which awaiting EC from MoEF, Govt. of India.
4. Improvement in Fluorine scrubbing system in SSP plant by installation of modified scrubber system and Filter Press for minimizing stack appearance and thus maintain good environment.
5. The company plans for in-house modification of SSP plant along with its crane shed extension to the tune of 2.50 lacs MT capacity Enhancement at Indore for which awaiting EC from Govt. of India.
6. The Company plans for keeping another stand-by STG of Germany make in ready to operate at Indore.

Oil Division:

7. For reducing power consumption, VFD system to be installed at FBC boiler's ID and FD fans in oil division.
8. Viability study on suitable solar energy system is in progress in oil division.

B) TECHNOLOGY ABSORPTION, ADAPTATION & INNOVATION:

The Company has not imported any foreign technology.

III. FOREIGN EXCHANGE EARNINGS AND OUTGO:

- I. Activities relating to exports, initiatives taken to increase exports, development of new export plans.
During the year, there is NIL export. The company is looking forward for increase in exports in its Soya business.
- II. Total foreign exchange used & earned :

		(₹ in lacs)
Used	:	16148.04
Earnings	:	NIL

MANAGEMENT DISCUSSION & ANALYSIS REPORT

1. ECONOMIC SCENARIO

India started building up the fertilizer production capacity to meet the increasing demand of fertilizers with introduction of high yielding variety seeds in late 1960s. Application of nutrients through fertilizers was a prerequisite to achieve massive increase in agriculture productivity. Government of India took note of the need to produce fertilizers indigenously and worked out appropriate policies in 1970s. These policies gave a push to build up of domestic production capacity. The decade of 1980s can be called the 'golden era' of fertilizer sector in India.

Agriculture Scenario : India produced 264 million tonnes food grains last year which is higher than previous highest production of 259 million tonnes achieved in 2011-12. This was possible due to good monsoon rains and high water level in major reservoirs of the country. But this output is much lower than the 450 million tonnes of food grains production achieved by China from 2/3rd of arable land. In fact, yields of major crops in India are almost half than those achieved in China and even lower than average yields of the world. To overcome this deficiency, it is the need of the hour to initiate plant nutrients based on soil condition, quality seeds, crop rotation and other host of good farm practices. The current use of primary nutrients Nitrogen (N), Phosphorous (P) and Potassium (K) is highly imprudent in favour of excessive use of N compared to use of P&K. The present N:P:K use ratio of 8.2 : 3.2 : 1 is skewed as compared to generally recommended ratio of 4 : 2 : 1. There is a huge anomaly in the present subsidy level of Urea commanding 70% of its cost of production as compared to 30% of P&K fertilizers.

The production of SSP increased significantly after changes in SSP policy in 2008-09 and implementation of NBS policy from 2010-11 during which period it recorded growth rate of 22%, 20% and 17% respectively. However, the momentum slowed down in the subsequent year 2012-13 at 2.6% and turned negative in 2013-14. The overall production of 4.168 million tonnes in 2013-14 was lower by 6% over the previous year despite good weather. This negative growth is attributed to various reasons like fall in demand caused by huge inventory in the channel, liquidity problem caused by delay in payment of subsidy and non-payment of balance subsidy since Nov. 2012 coupled with reduction in subsidy payable and reduction in MRP.

Revival of Monsoon : Currently, the monsoon is well set and in full swing in the country and Meteorology Dept., forecasts heavy rains in most parts of the country including M.P., Gujarat and Maharashtra which are the major khariff oil seeds growing states. In M.P., and nearby areas 60 – 80% sowing has been completed; however, this year sowing of soya seed will be less as compared to the last year due to delay in the monsoon at the beginning of this season and also crisis of good quality graded seeds in the market and also some farmers diverted to cotton. As per market information, this year estimated soya crop would be around 80 to 90 lac tonnes as against 110 lac tonnes in the previous year due to late sowing subsequent to delayed monsoon.

2. INDUSTRY STRUCTURE AND DEVELOPMENTS

Fertilizer: The Company manufactures phosphatic fertilizer (SSP) viz. Single Super Phosphate in both Powder and Granulated form along with various grades of Mixed Fertilizer NPK and industrial chemicals Sulphuric Acid and Oleum. SSP is generally used for improved root growth and chlorophyll synthesis and thus improve quality of product since it contains 16% P₂O₅, 11% Sulphur, 21% Calcium and Minerals in Traces. The main attraction and utility of SSP is that it is cheaper in cost and available at 1/4th price of DAP & MAP and 2/3rd price of MOP without compromising on overall input value. Currently 17% of domestic production of Phosphate (P₂O₅) is contributed by SSP.

Consumption of Chemical Fertilizers and Balanced Use of Fertilizers : Consumption of fertilizers increased by 7 million tonnes nutrients in 1980s and by another 4 million tonnes in 1990s. Fertilizer industry did the yeoman service and continues to do so by providing quality fertilizers to more than 120 million farmers year after year.

The share of SSP to total production of P₂O₅ nutrient was 100 percent way back in 1950s before the complex fertilizers came in production in India. It declined to 44.8% during 1970-71 and 23.4% during 1980-81. Some improvement was noticed during 1990-91 when it touched 28.5%. In spite of the favourable scenario prevailing in the country, the phosphate segment has performed badly on actual production. The production of phosphates as nutrient P₂O₅ was 3.96 million tonnes in 2013-14 whilst it peaked at 4.4 million tonnes in 2006-07 and declined since then.

As per the data for international consumption available as of 2011, it is observed that India ranks third in the global consumption of SSP, next to China and Brazil. It is further interesting to note that in Egypt, bulk of the quantity, i.e. 93% of P₂O₅ consumption is sourced through SSP followed by New Zealand with 79%, Brazil 30%, China 17% and India with 10%.

Phosphatic industry is adversely affected by adhoc changes in Nutrient Based Subsidy (NBS) policy which created environment of uncertainty. These included fixing the subsidy and also fixing MRP indirectly in policy notification for 2013-14. In such a situation, fertilizer companies are unable to take decision on procurement of raw materials almost all of which are imported. Companies have then to rely on spot purchases which affect the production planning.

Reasons for capacity stagnation : According to FAI, the reasons for stagnant capacity and production are not far to seek. The phosphatic fertilizers always faced uncertain policy environment with knee jerk changes. The introduction of NBS was intended to put the fertilizer sector on reform path. But its selective introduction only for phosphatic and potassic fertilizers in 2010 and then adhoc changes in the fundamentals of policy have put the fertilizer industry in trouble looking for policy direction. The current situation has led to imbalanced use of primary nutrients harming the soil health in the process. It is also resulting in less than desirable agriculture productivity and thus poor return to the farmers on application of costly fertilizers.

Soya Oil: Edible oil production of India from domestic sources remained stagnant at between 7 – 8 million tonnes for the last many years. Hence, increasing import reliance is a natural phenomenon which will continue until production from domestic sources stepped up. Total oil production from domestic sources is likely to remain at 7.6 million tonnes in the year 2013-14, marginal increase from the last year level at 7.5 million tonnes. Overall import of the country in the first five months (Nov.13 to Mar.14) fell marginally by 6% to 4.3 million tonnes in the previous year in which Soya oil accounts for more than 40%. Edible oil production from domestic sources remained lower despite increase in overall seed production. The need of imports in total edible oil consumption of India is likely to hit 65.3% in the oil year (Nov-Oct 2013-14) against 61.2% in the previous year, according to USDA.

Soya oil, the second largest edible oil consumed in the country, caters to around 15% of the burgeoning domestic edible oil demand. In spite of delayed monsoon by more than a month, production of oilseeds is expected to be higher at 23.96 million tonnes against last 20.86 million tonnes boosted by a record high soyabean output of 15.68 million tonnes. In spite of achieving higher production, the productivity of soybean in the country stands at 43% of world average which needs to be improved by optimum use of fertilizers and other field mechanization wherever necessary.

Soybean crushing activity seen a huge drop due to lower availability of seeds. Since the start of this oil year (Oct-Sep) till March-14, India has crushed 5 million tonne of Soybean whilst last year India crushed 1 million tonne more soybean in the same period. The year saw capacity utilization at 25 to 30% as a whole as per the data released by SOPA. There has been a drop in crushing as availability of seeds is an issue and also disparity between Indian and International prices making it attractive to import soya oil which has impacted soybean crushing activity.

According to World Bank reports, edible oil experienced the fastest production and consumption growth rates of all agricultural commodities during recent decades which is likely to continue in the future. It further states that production growth rates for eight commodities, soybeans and palm oil shows two to three times higher those of food commodities. Edible oils are, perhaps, the only commodity group whose income elasticity is high not only for low and middle income countries but also for high income countries. This reflects the fact that as income increases, people tend to eat more in professional establishments and consume more pre-packed foods items, both of which are utilizing more edible oil than otherwise.

The Per Capita consumption of edible oils in India was only 4 kg in 1973 which increased to 9.40 kg in 2001-02, 10.50 kg in 2007-08 and estimated to reach 14.40 kg in 2013.14. This is still a lot below threshold level of consumption. However, this rapid growth in consumption is on account of increasing income, rising urban population, supply of oils by Govt. at subsidized rate under PDS and increasing out of home consumption etc. While the industry is growing at an accelerated pace driven by rising oil demand for household consumption, numerous industrial applications and as an alternative energy source, the value chain participants struggle to protect their margins amidst the challenges thrown by extreme price volatilities, regulatory uncertainties and availability of raw material as well as substitutes like crude palm oil.

3. OPPORTUNITIES AND THREATS

The fertilizer industry being a seasonal industry, it depends on the vagaries of monsoon. This year, there was inordinate delay in the onset of monsoon, which delayed the sowing pattern of major crops throughout the country. In spite of delay, till date, the rainfall is adequately spread out in the whole country which instilled hope in the minds of farmer to continue sowing. This delay would result in availability of food grains and pulses in the market.

For the industry of our size, we had to continue to withhold the supplies for want of demand in the market which otherwise would have been liquidated by middle of June. Thus, there was no loss of sale for the company though delay in liquidation.

The international price of Rock Phosphate is reached a semblance in the market. With this, it is hoped that the company would be in a position to save precious foreign exchange and thus improve profitability.

Company has also made strategic marketing tie up with Nagarjuna Fertilizers & GSFC for marketing fertilizers in U.P. and other states where the company has little presence. Moreover, company regularly participates in tender formalities called by various Marketing Federations in respective States and sources order for supply.

Company intends to monetize railway siding at Pune unit by giving co-use permission. This will bring in additional revenue to the company in the long run.

The company commands a high recall of our brands viz., “Girnar” and “Suryaphool” in the minds of farmers in respective area of our operation. Additionally, company is venturing on image building exercises by promoting its products in Trade Fairs, Dealer’s meet at our plants etc. So as to develop brand image, company earmarks substantial amount towards product development expenses.

Company’s manufacturing units are situated at strategic locations viz., Pune, Indore and Udaipur and operates mainly in Western India region. It is worth to note that out of 4.054 million tonnes despatched in the country, West zone accounted for largest share of 68.6% followed by East zone 12.2%, whilst North and South zones holding share of 10.1% and 9.1% respectively. Thus, we are in advantageous position.

In the current financial budget, it was announced investment allowance of 15% on investment of more than ₹ 25 cr in the existing units which we hope would help the company in expansion needs.

SSP is being the low cost fertilizer and domestically produced, Govt. is also encouraging SSP to substitute imports of other fertilizers like DAP and NPK, which is an indication of upward trend in future.

The company intends to revive its edible soya oil brand “Sufla” in the market during this year based on viability of operations.

The Government policy plays a major role in survival of fertilizer industry and timely release of funds towards subsidy amount would help the company in maintaining requisite cash flow on day-today- requirements.

In spite of adverse business environment due to stagnant demand, sliding sales and intense competition from new players in the market, the Company shall ensure for extraordinary measures for efficient management of all resources with innovative approach to cost reduction and achieve optimum operating efficiency.

4. SEGMENTWISE PERFORMANCE

The requisite information regarding Segment wise performance has been given in the Notes forming part of the Accounts.

5. OUTLOOK

There is no change in the prevailing NBS policy during this year subsequent to reduction of ₹ 500/- pmt announced in the previous year. However, company’s inherent strength in product and strategic marketing practices would make it sail through all hurdles.

On receipt of requisite Environment Clearance permission from MoEF authorities, company would be in a position to enhance capacities of Fertilizer production at both Indore and Udaipur units.

The main producer of Soya seed in the country is Madhya Pradesh state and it is reported that acreage cultivation is increased during this season which will result in higher consumption of SSP fertilizer and subsequent availability of plenty of soya seed in the country. The company intends to operate oil crushing plant at optimum capacity based on viability and funds availability and with commissioning of Lecithin plant and introduction of value-added product “Soil Conditioner”, viability will further improve.

Hopefully with the above initiatives, company would be in a position to deliver superior returns to the stake holders.

6. INTERNAL CONTROL SYSTEMS

The Company has an adequate system of internal control and conducts audit on quarterly basis at all plants and the salient points are discussed and corrective actions are taken. It also ensures that all assets are protected against loss from unauthorized use or disposition and all transactions are recorded and reported in conformity with generally accepted accounting principles.

7. FINANCIAL PERFORMANCE

During the year Company has achieved revenue of ₹ 54105.69 Lacs as compared to ₹ 62,035.43 Lacs for the year ended March 31, 2013. The Loss for the year is ₹ 210.95 Lacs as compared to Profit of ₹ 2563.01 Lacs achieved in the previous year.

8. HUMAN RESOURCES AND INDUSTRIAL RELATIONS

The industrial relations remained cordial during the year under review.

9. CAUTIONARY STATEMENT

Statements in this Report on Management Discussion and Analysis describing the Company’s objectives, projections, estimates, expectations or predictions are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied. Important factors that make a difference to the Company’s operations include poor monsoon, changes in Government regulations relating to fertilizer subsidy, economic conditions affecting demand/supply, price conditions in the markets in which the company operates, competition from small scale manufacturers, litigations and industrial relations. The Company assumes no responsibility to amend, modify or revise any of the statements on the basis of subsequent developments, information or events.

INDEPENDENT AUDITOR'S REPORT

To the Members of Rama Phosphates Limited

Report on the Financial Statements

We have audited the accompanying financial statements of Rama Phosphates Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2014 and the Statement of Profit and Loss and Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

Notes to the Financial Statements for the year ended March 31, 2014

1 SIGNIFICANT ACCOUNTING POLICIES :

A) GENERAL

- 1 The accounts are prepared on the basis of the Historical Cost Convention and in accordance with generally accepted accounting principles and provisions of the Companies Act, 1956.
- 2 The company follows mercantile system of accounting and recognises income and expenditure on accrual basis. Interest on unpaid call money is accounted for as and when received.
- 3 Sales include sale of by-products and are net of sales tax if any and includes subsidy.
- 4 Investments are valued at cost of acquisition. Only permanent diminution in the value of investments meant to be held for long term is recognised.

B) EXCISE DUTY

Liability for excise duty payable on finished products has been accounted in respect of goods lying at the end of the year and added to the value of closing stock.

C) FIXED ASSETS

- (a) Fixed Assets are stated at cost of acquisition including taxes, duties, freight and other incidental expenses related to acquisition and installation of the concerned assets and net off cenvat.

- (b) Impairment of Assets :

The carrying amount of assets are reviewed at each Balance sheet date if there is any indication of impairment based on internal / external factors.

If the carrying amount of the asset exceeds its estimated recoverable amount, an impairment loss is recognised in the Statement of Profit & Loss to the extent the carrying amount exceeds recoverable amount.

Reversal of impairment losses recognised in prior years is recorded when there is an indication that the impairment losses recognised for the assets, no longer exists or have decreased.

D) DEPRECIATION

Depreciation is provided on straight-line method, at the rates prescribed in Schedule XIV to the Companies Act, 1956 on a pro-rata basis commencing from the month of addition, except in case of plant and factory building of edible oil refinery and solvent extraction units and Sulphuric Acid plants where the Depreciation is provided on written down value method.

E) INVESTMENTS

Investments are stated at cost less any diminution in their value, which is other than temporary.

F) INVENTORIES

Inventories are valued as under :

Raw materials, Work in Process and Packing materials	at cost on First in First out (FIFO) basis or net realisable value whichever is lower. Raw material and Work in Process are not written down below cost if the finished product in which they will be incorporated are expected to be sold at or above cost.
Finished goods	at cost or net realisable value whichever is lower. The cost is computed on weighted average method and includes cost of materials, cost of conversion and other costs incurred in acquiring the inventory and bringing them to their present location and condition.
Stores & spares	at Cost on FIFO basis.

G) BORROWING COST

Borrowing costs attributable to the acquisition or construction of fixed assets are capitalised as part of cost of the assets, upto the date the asset is put to use. Other Borrowing cost are charged to Statement of Profit & loss in the year in which they are incurred.

Notes to the Financial Statements for the year ended March 31, 2014

H) SUBSIDY RECEIVABLE

Subsidy receivable is accounted on the basis of actual sales and the deductions if any from the same, made by the Certifying Authority, are accounted as and when the same are communicated to the Company.
